## Join Us in Prague

Join your peers in Prague to learn how industry leaders are adapting their supply chains to the "New Normal". With the Credit Crunch & Global Financial Crisis in full swing, the winners will be those companies who adapt their supply chains to meet the changing needs of the market both now & in preparation to emerge with momentum as the crisis eases & growth returns.

The meeting is hosted by FM Logistic a major player in the region who will share their perspective on the impact of the Financial Crisis on the CEE region.

There will also be a short tour of Prague and a networking dinner on the evening of the 25th June

Additional perspectives will be added by representatives from Government & Industry bodies in the region.
